Re: Permit By Rule Status
035-30752-00031

Dear Melissa Farrington:

Farmers Elevator Company (now The Andersons, Inc. - Oakville Grain Elevator) was issued an Operating Permit No. 18-01-89-0241 on December 17, 1984, and an Operating Permit Renewals Nos. 18-10-93-0264 and 18-10-93-0265 on October 1, 1993, for a stationary grain elevator with two natural gas-fired column grain dryers located at 500 Oakville Road, Oakville, IN 47367. In 1997, Farmers Elevator Company began operating under the provisions of 326 IAC 2-11-3 (Permit by Rule for Grain Elevators).

On August 1, 2011, The Andersons Inc. submitted an application to the Office of Air Quality (OAQ) requesting approval to replace the existing two (2) natural gas-fired column grain dryers with one new natural gas-fired column grain dryer. As a result of this modification to the source, The Andersons, Inc., indicated that the potential emissions from the source will decrease, since the new column grain dryer is more efficient than the existing two (2) column grain dryers. In addition, The Andersons, Inc., indicated that the projected annual grain dryer throughput would not change as a result of this modification and that the projected annual hours of operation for the new grain dryer would be approximately 500 hours per year.

On August 11, 2011, The Andersons, Inc., submitted historical annual grain throughput data to OAQ that indicated that the grain elevator has been in compliance with the annual grain throughput of 11,200,000 bushels per year, pursuant to 326 IAC 2-11-3(b)(1).

The Andersons, Inc. - Oakville Grain Elevator has indicated that the source satisfies the criteria to operate under the provisions of 326 IAC 2-11 (Permit by Rule for Specific Source Categories). Based on the data and information submitted and the provisions of 326 IAC 2-11 (Permit by Rule for Specific Source Categories), The Andersons Inc. - Oakville Grain Elevator, is operating under Permit by Rule (PBR) Status.

Pursuant to 326 IAC 2-11-1 (General Provisions) and 326 IAC 2-11-3 (Permit by Rule for Grain Elevators):

- (a) This source shall comply with the following:
 - (1) This grain elevator receives grain by truck and/or rail and ships grain by truck and/or rail. To limit allowable emissions or potential to emit as provided in 326 IAC 2-11-1(c), the annual total throughput limits shall be equal to or less than eleven million two hundred thousand (11,200,000) bushels. [326 IAC 2-11-3(b)(1)]
 - (2) This source shall operate and properly maintain air pollution control devices at the source. [326 IAC 2-11-1(g)(1)]

If you have any questions on this matter, please contact Nathan Bell, of my staff, at 317-233-5670 or 1-800-451-6027, and ask for extension 3-5670.

Sincerely,

A handwritten signature in black ink, appearing to read 'Alfred C. Dumaual', written over a faint, larger signature.
